

JOB OFFER

Lleida Biomedical Research Institute is recruiting a:

- Technician -

The Institute

The IRBLleida aims to promote, develop, transfer, manage and disseminate research excellence, scientific and technological knowledge, teaching and training in the field of life sciences and health. To this end, it promotes relations and the exchange of knowledge between the research staff and research groups belonging to the various centres and entities in the biomedical field, which operate mainly in the Lleida area; it promotes collaboration with other institutions and entities, prioritising the implementation of joint projects; it raises funds to finance research activities of excellence of interest to the aforementioned centres and devices; and it manages the research resources entrusted to it by the various institutions and entities that form part of it. Within the territorial environment, it collaborates closely with:

- The [University of Lleida](#) (UdL) includes researchers from the Faculties of Medicine and Nursing and Physiotherapy.
- The Catalan [Healthcare system](#) includes healthcare staff from:
 - [Catalan Health Institute \(ICS\)](#): [Arnau de Vilanova University Hospital](#) (HUAV), [the Lleida Primary Care and Community](#) and [Primary Care in the Alt Pirineu-Aran Health Region](#)
 - [Gestió de Serveis Sanitaris](#) (GSS): [Santa Maria University Hospital](#) (HUSM), [Pallars Regional Hospital](#) and [Mental Health](#), among others.

The IRBLleida is a [CERCA](#) institute with its own legal status: Fundació Institució dels Centres de Recerca de Catalunya (I-CERCA) de Catalunya, which is organised according to a model of good governance and operation that ensures efficiency, management flexibility, recruitment and promotion of talent, strategic planning and executive capacity. It is also a Health Research Institute (IIS) accredited by the [Carlos III Health Institute](#) and the Government of the Generalitat, as established by Law 16/2003, of 28 May, on the cohesion and quality of the national health system.

In December 2014, the Lleida Biomedical Research Institute's received the '[HR Excellence in Research](#)' logo from the European Commission. This is a recognition of the Institute's commitment to developing an HR Strategy for Researchers, designed to bring the practices and procedures in line with the principles of the [European Charter for Researchers](#) and the [Code of Conduct](#) for the Recruitment of Researchers (Charter and Code).

Please, [check out our Recruitment Policy](#)

Professional profile of the contracted worker:

- Technical research support staff

Requirements and characteristics to be met (excluding):

- Higher Level Training Cycle or university degree in the field of health (nursing, medicine, biomedicine, pharmacy, other)

Tasks to be performed:

The selected person will join IRBLleida to carry out the following tasks for the research project "PP10479 Determinación del tiempo de inicio del ictus isquémico y el tejido recuperable mediante la firma ómica: OMIC IS BRAINamb" with file code PI20/01575, funded by the Instituto de Salud Carlos III. The grant may be co-financed by the FEDER "Una manera de hacer Europa".

- Processing of human samples: as part of the stroke biobank network, the technician will participate by coordinating the collection of samples with the hospitals involved and processing the samples in collaboration with the IRBLleida Biobanc and the Clinical Neurosciences group. This specific task requires flexibility.
- Participation in the coordination of prospective clinical studies and clinical trials.
- Collaboration in ongoing projects of the Clinical Neurosciences group: the research technician will join one or more ongoing patient follow-up and blood sample management projects. Previous experience in working with human blood samples and patient monitoring will be positively evaluated.

Would be an asset:

- Master's degree in clinical trials.
- Knowledge of English (B2 level).
- Completion of courses in clinical data management/animal handling/blood sample handling.
- Previous experience in clinical trial monitoring/coordination/participation.

- Previous experience (ideally 2 years) in as many tasks as possible required for the position: clinical database management, clinical trial management, basic research techniques.
- Participation in scientific publications as proof of technical competence.
- Excellent team-working skills balanced with the ability to work autonomously.
- Interest to learn and grow professionally in a dynamic and competitive laboratory.
- Commitment to perform tasks with excellence.
- Excellent organisational skills.
